UNION PACIFIC LOGISTICS AND PLANNING
HOLIDAY EDITION

SAP

We continue to work with our implementers on developing the new SAP/P44/LBN TMS. As we get closer to launch date (*fingers crossed* August 2024), we will be reaching out to get you linked with our new bidding system and tracking/tracking technology.

Thank you to everyone who filled out our SAP conversion survey!

Invoices

This is just a friendly reminder to work on submitting your 2023 invoices before the end of December.

We want to wish you a Merry Christmas and Happy Holidays. Your partnership is truly valued and we appreciate all that you do to help us keep the railroad moving and are looking forward to working with each and every one of you in 2024!
