UBS Global Industrials and Transportation Conference – Updated 2022 Guidance

On June 7, 2022, Jennifer L. Hamann, Executive Vice President and Chief Financial Officer of Union Pacific Corporation (the Company) and Kenny G. Rocker, Executive Vice President – Marketing and Sales of Union Pacific Railroad (the Railroad), the principal operating subsidiary of the Company, addressed the 2022 UBS Global Industrials and Transportation Conference. Ms. Hamann reaffirmed that the Company expects to achieve full year fiscal 2022 operating ratio improvement as compared to full year fiscal 2021 results. However, she provided that the increased pressure from fuel prices and other cost inflation as well as higher network costs will pressure incremental margins below the original forecast of mid-60 percent. The Company now expects all-in inflation, excluding locomotive fuel, for the full year to be around four percent (4%). Ms. Hamann also presented that these same pressures make achievement of the Company's full year operating ratio starting with a '55' unlikely. The full presentation is available on the Company's website www.up.com under Investors; Earnings Release and Management Presentations; Transportation Conferences.

U.S. Surface Transportation Board - Amended Service Recovery Plan Filing

On June 3, 2022, the Railroad, filed an amended service recovery plan (the amended plan) in response to a request from the U.S. Surface Transportation Board and Docket No. EP 770. The amended plan provides a range of projections for key Railroad metric operating targets. The amended plan is publicly available as filing number 304693 on the STB website at <https://www.stb.gov/proceedings-actions/filings>.
