

Tacoma South Intermodal Facility (TacSim)

Union Pacific is pleased to announce the opening of Tacoma South Intermodal Facility (TacSim) for domestic intermodal service. Covering more than 40 acres, TacSim is capable of handling 150,000 annual lifts, greatly increasing UP's intermodal capacity in the Pacific Northwest. This facility is strategically located near western Washington's warehousing, transloading and distribution centers, with convenient interstate and highway access.

Facility Features

- Leading Technology**
 Utilizes TCS and Oasis software to maximize terminal efficiencies.
- 25 Acre Container Yard**
 Provides ample capacity to process containers and creates faster availability.
- 24 Hour, Seven-Day-a-Week Operations**
 Allowing operational convenience and flexibility for customers and drayage carriers.
- Future Services**
 TacSim's capacity allows Union Pacific to add additional lanes, including service between Los Angeles and TacSim, planned for 2009.
- Interstate and Highway Access**
 Convenient access to Interstate 5, Highway 509 and Highway 99 offers greater access to Washington and Western Canada.

Your Green Connection

Union Pacific is dedicated to providing capacity and convenience at the TacSim facility, with an equal commitment to offer our customers an environmentally-superior transportation alternative.

Tacoma South Intermodal Facility:

- Positioned to serve more than 80 million square feet of warehouse space
- Provides competitive intermodal service between the Pacific Northwest and the major markets of Chicago, the Midwest and the eastern United States
- Central to all major markets
- Avoids congestion in the surrounding metropolitan market
- Offers unparalleled market access
