

**U.S. - Mex Connection® for Lumber**

**Effective : 1-01-05**

**COMMODITIES COVERED**

1. Rates apply only to commodities with the following STCC's:
  - 24211 Lumber
  - 24299 Mill Products
  - 24319 Millwork
  - 24321 Plywood
  - 24391 Eng Wood
  - 24912 Wood Ties
  - 24991 Oriented Strand Board
  - 24993 Hardboard
  - 24996 Particleboard / Medium Density Fiberboard
  - 32754 Wallboard

**RULES, CONDITIONS AND PROVISIONS**

General:

1. Subject to the provisions of UP Circular 16.
2. Groups as shown in this circular are defined in Item 10 Series of UP Circular 2421.

Rates:

4. All rates are in U.S. dollars per car.
5. Rates are subject to quarterly increases. Rates may be adjusted downward on 15 days notice.
6. Rates may be used in combination with other rates originating at points beyond.

Switching:

7. Reciprocal switching charges at origin will be absorbed, subject to a maximum of \$300.

Equipment:

**Boxcars:**

- 53' Box: Boxcars not exceeding 53' interior length.
- 60' Box: Boxcars exceeding 53', but not exceeding 63' interior length.

Rates apply in boxcars with an AAR Car Type Code of 'A' - Equipped Boxcar or 'B' - Unequipped Boxcar.  
Rates do NOT apply in All Door Boxcars.

**Bulkhead Flatcars:**

- Rates apply on Plain or Bulkhead Flats with less than 190,000 lbs. capacity.

**Standard Centerbeam Flatcars:**

- Rates apply on Centerbeam Flatcars up to 73' inside length with lading weight less than 205,000 lbs.

**High Capacity Centerbeam Flatcars:\*\***

- Rates apply on Centerbeam or BHF cars up to 73' inside length, with lading weights greater than 205,000 lbs.
- \*\* Any carloads that exceed 263,000 lbs. gross weight should be cleared for that weight capacity to final destination by calling our Clearance Bureau at 800-544-0541.
- \*\* On Centerbeam shipments, customers must furnish an estimated weight when billing the cars, indicating whether or not their load exceeds 205,000 lbs.
- \*\* The carrier reserves the right to weigh cars for billing purposes as needed.

\*\*Overloaded cars are subject to the applicable UP system overload tariffs.

## Generating a Bill of Lading With Union Pacific

Your shipping instructions can be transmitted online using the **Bill of Lading Submission** application at [www.uprr.com/customer](http://www.uprr.com/customer).

When shipping cars into Mexico on a through rate basis (single freight bill), there are several things you need to know:

1. The circular applies only on shipments of covered commodities.
2. Shipments **MUST** move on a prepaid basis.
3. Rates apply only on northbound or southbound shipments moving to or from UP served or accessed origins/destinations within the U.S to or from FXE served origins/destinations within Mexico.

**All Southbound Bills of Lading issued to UP (Electronic or Paper) must contain the following:**

1. **Consignor (Shipper):** Full name and physical address required
2. **Consignee (Receiver in Mexico):** Full name and physical address required
3. **Care of Party (Freight Forwarder/U.S. Customs broker):**  
The Care of Party on the BOL must show as the U.S. Freight Forwarder or Mexican Custom Broker. If the U.S. Freight Forwarder/Custom Broker is NOT shown as the C/O party then Union Pacific will NOT send the Despacho Previo notification to the broker which could create delays in getting the cars cleared (See Section 7, Part 2 – Southbound Clearance Process).
4. **Commodity Code & Description:** Must always provide 7-digit STCC and description.
5. **Rate Authority:** Billing must make reference to UPMX250.
6. **Prepaid vs. Collect:** Rates in only apply when shipped on a “prepaid” basis.
7. **Send Freight Party:** Be sure to identify who the freight bill should be sent to with physical name, address & phone number.

### Example:
