

# Santa Teresa Intermodal Ramp

Rail facility adding jobs and strength to the state economy.

BUILDING AMERICA®

**\$400  
MILLION**  
UNION PACIFIC  
INVESTMENT

Union Pacific's Santa Teresa facility provides customers a freight transportation advantage as they compete in the domestic and global marketplaces. At the same time, it positions the southwestern U.S. as a strategic goods movement focal point.

## BIOMETRIC TECHNOLOGY

with automated gate processing system averages between one and two minutes versus a four to six minute national average for a manual gate system.

Located on America's critical corridor between El Paso, Texas, and Los Angeles, and strategically positioned near the Mexican border.
