Union Pacific Reports Fourth Quarter and Full Year 2020 Results

FOR IMMEDIATE RELEASE

Omaha, Neb., January 21, 2021 – Union Pacific Corporation (NYSE: UNP) today reported 2020 fourth quarter net income of \$1.4 billion, or \$2.05 per diluted share. These results include a previously announced \$278 million pre-tax, non-cash impairment charge. Excluding the effects of that charge, adjusted fourth quarter net income was \$1.6 billion, or \$2.36 per diluted share. This compares to \$1.4 billion, or \$2.02 per diluted share, in the fourth quarter 2019.

“These outstanding results demonstrate the true potential of our franchise as we leveraged all three profitability drivers simultaneously – volume growth, productivity, and pricing – to produce record fourth quarter results,” said Lance Fritz, Union Pacific chairman, president, and chief executive officer. “The women and men of Union Pacific persevered throughout the pandemic to provide our customers with a safe, reliable, and consistent service product.”

Fourth Quarter Summary

Operating revenue of \$5.1 billion was down 1% in fourth quarter 2020 compared to fourth quarter 2019. Fourth quarter business volumes, as measured by total revenue carloads, increased 3% compared to 2019. Premium volumes increased compared to 2019, while bulk was flat and industrial declined. In addition:

- Quarterly freight revenue declined 1% compared to fourth quarter 2019, as volume growth and core pricing gains were more than offset by decreased fuel surcharge revenue and a less favorable business mix.
- Union Pacific's 61.0% reported operating ratio when adjusted for the impairment charge is an all-time quarterly record of 55.6%, 410 basis points lower than fourth quarter 2019. Lower fuel prices positively impacted the operating ratio by 90 basis points.
- Quarterly freight car velocity was 223 daily miles per car, a 1% improvement compared to fourth quarter 2019.
- Quarterly locomotive productivity was 142 gross ton-miles per horsepower day, a 13% improvement compared to fourth quarter 2019.
- Quarterly workforce productivity was 1,032 car miles per employee, an 18% improvement compared to fourth quarter 2019.
- Average maximum train length was 9,154 feet, a 12% increase compared to fourth quarter 2019.
- The Company repurchased 3.8 million shares in fourth quarter 2020 at an aggregate cost of \$749 million.

Summary of Fourth Quarter Freight Revenues

- Bulk up 1%
- Industrial down 7%
- Premium up 5%

2020 Full Year Summary

For the full year 2020, Union Pacific reported net income of \$5.3 billion or \$7.88 per diluted share. Excluding the effects of the \$278 million pre-tax, non-cash impairment charge, adjusted full year net income was \$5.6 billion, or \$8.19 per diluted share. This compares to \$5.9 billion, or \$8.38 per diluted share, in 2019.

Operating revenue totaled \$19.5 billion compared to \$21.7 billion in 2019.

Operating income totaled \$7.8 billion, which decreased compared to 2019. In addition:

- Freight revenue totaled \$18.3 billion, a 10% decrease compared to 2019. Carloadings were down 7% versus 2019, as all three business teams – bulk, industrial, and premium – declined due to the economic conditions brought on by the COVID-19 pandemic.
- Union Pacific's full year 59.9% reported operating ratio when adjusted for the impairment charge is a best ever 58.5%, 210 basis points lower than 2019. Lower fuel prices positively impacted the operating ratio by 130 basis points.
- Union Pacific's reportable personal injury rate of 0.90 incidents per 200,000 employee hours was flat compared to full year 2019. The Company's FRA reportable rail equipment incident rate of 3.54 per million train miles improved 17% compared to full year 2019.
- Through continued implementation of precision scheduled railroading principles, Union Pacific made year-over-year improvements in its key operating performance indicators:
 - Freight car velocity – 6% improvement
 - Average terminal dwell – 8% improvement
 - Locomotive productivity – 14% improvement
 - Workforce productivity – 11% improvement
 - Train length – 14% improvement
 - Intermodal car trip plan compliance – 6 pt. improvement
 - Manifest/Autos car trip plan compliance – 6 pt. improvement
- Fuel consumption rate, measured in gallons of fuel per thousand gross ton miles, improved 2% in 2020 compared to 2019.
- Union Pacific's capital program in 2020 totaled \$2.8 billion.
- Union Pacific repurchased 22 million shares in 2020 at an aggregate cost of \$3.7 billion.

2021 Outlook

“While the economic outlook for 2021 remains uncertain, we will build off our solid 2020 performance to produce continued strong productivity through operational excellence. We expect our enhanced service product will support both solid core pricing gains while also increasing our share of the freight transportation market,” Fritz said. “Our confidence in our ability to drive value for all of our stakeholders has never been greater.”

Fourth Quarter 2020 Earnings Conference Call

Union Pacific will webcast its fourth quarter 2020 earnings release presentation live at www.up.com/investor and via teleconference on Thursday, January 21, 2021, at 8:45 a.m. Eastern Time. Participants may join the conference call by dialing 877-407-8293 (or for international participants, 201-689-8349).

[Supplemental financial information is attached.](#)

This news release and related materials contain statements about the Company's future that are not statements of historical fact, including specifically the statements regarding the Company's expectations with respect to economic conditions and demand levels, its ability to improve network performance, its results of operations, and potential impacts of the COVID-19 pandemic. These statements are, or will be, forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements also generally include, without limitation, information or statements regarding: projections, predictions, expectations, estimates or forecasts as to the Company's and its subsidiaries' business, financial, and operational results, and future economic performance; and management's beliefs, expectations, goals, and objectives and other similar expressions concerning matters that are not historical facts.

Forward-looking statements should not be read as a guarantee of future performance or results, and will not necessarily be accurate indications of the times that, or by which, such performance or results will be achieved. Forward-looking information, including expectations regarding operational and financial improvements and the Company's future performance or results are subject to risks and uncertainties that could cause actual performance or results to differ materially from those expressed in the statement. Important factors, including risk factors, could affect the Company's and its subsidiaries' future results and could cause those results or other outcomes to differ materially from those expressed or implied in the forward-looking statements. Information regarding risk factors and other cautionary information are available in the Company's Annual Report on Form 10-K for 2019, which was filed with the SEC on February 7, 2020, and the Company's Quarterly Report on Form 10-Q, which was filed with the SEC on July 23, 2020. The Company updates information regarding risk factors if circumstances require such updates in its periodic reports on Form 10-Q and its subsequent Annual Reports on Form 10-K (or such other reports that may be filed with the SEC).

Forward-looking statements speak only as of, and are based only upon information available on, the date the statements were made. The Company assumes no obligation to update forward-looking information to reflect actual results, changes in assumptions, or changes in other factors affecting forward-looking information. If the Company does update one or more forward-looking statements, no inference should be drawn that the Company will make additional updates with respect thereto or with respect to other forward-looking statements. References to our website are provided for convenience and, therefore, information on or available through the website is not, and should not be deemed to be, incorporated by reference herein.

Reconciliation of Non-GAAP Financial Measures

Adjusted Debt / Adjusted EBITDA*

<i>Millions, Except Ratios for the Twelve Months Ended</i>	Dec. 31, 2020	Dec. 31, 2019	Dec. 31, 2018
Net income	\$ 5,349	\$ 5,919	\$ 5,966
Add:			
Income tax expense/(benefit)	1,631	1,828	1,775
Depreciation	2,210	2,216	2,191
Interest expense	1,141	1,050	870
EBITDA	\$ 10,331	\$ 11,013	\$ 10,802
Adjustments:			
Other income	(287)	(243)	(94)
Interest on operating lease liabilities**	59	68	84
Adjusted EBITDA	\$ 10,103	\$ 10,838	\$ 10,792
Debt	\$ 26,729	\$ 25,200	\$ 22,391
Operating lease liabilities***	1,604	1,833	2,271
Unfunded pension and OPEB, net of taxes of \$195, \$124, and \$135	637	400	456
Adjusted debt	\$ 28,970	\$ 27,433	\$ 25,118
Adjusted debt / Adjusted EBITDA	2.9	2.5	2.3

Comparable Adjusted Debt / Adjusted EBITDA*

	Dec. 31, 2020	Dec. 31, 2019	Dec. 31, 2018
Adjusted debt / Adjusted EBITDA	2.9	2.5	2.3
Factors Affecting Comparability:			
Brazos yard impairment [a]	(0.1)	N/A	N/A
Comparable Adjusted Debt / Adjusted EBITDA*	2.8	2.5	2.3

[a] Adjustments remove the impact of \$209 million from net income and \$69 million from income tax expense for the year ended December 31, 2020. See page 10 for a reconciliation to GAAP.

* Total debt plus operating lease liabilities plus after-tax unfunded pension and OPEB obligation divided by net income plus income tax expense, depreciation, amortization, interest expense, and adjustments for other income and interest on operating lease liabilities. Adjusted debt to adjusted EBITDA (earnings before interest, taxes, depreciation, amortization, other income, and interest on operating lease liabilities) and comparable adjusted debt to adjusted EBITDA are considered non-GAAP financial measures by SEC Regulation G and Item 10 of SEC Regulation S-K and may not be defined and calculated by other companies in the same manner. We believe these measures are important to management and investors in evaluating the Company's ability to sustain given debt levels (including leases) with the cash generated from operations. In addition, a comparable measure is used by rating agencies when reviewing the Company's credit rating. Adjusted debt to adjusted EBITDA and comparable adjusted debt to adjusted EBITDA should be considered in addition to, rather than as a substitute for, net income. The tables above provide reconciliations from net income to adjusted debt to adjusted EBITDA and comparable adjusted debt to adjusted EBITDA. At December 31, 2020, 2019, and 2018, the incremental borrowing rate on operating leases was 3.7%.

** Represents the hypothetical interest expense we would incur (using the incremental borrowing rate) if the property under our operating leases were owned or accounted for as finance leases.

*** Effective January 1, 2019, the Company adopted Accounting Standards Update No. 2016-02 (ASU 2016-02), Leases. ASU 2016-02 requires companies to recognize lease assets and lease liabilities on the balance sheet. Prior to adoption, the present value of operating leases was used in this calculation.

Comparable Return on Invested Capital as Adjusted (Comparable ROIC)*

	2020		2019		2018
Return on invested capital as adjusted		13.9%		15.0%	15.1%
Factors Affecting Comparability:					
Brazos yard impairment [a]		0.4		N/A	N/A
Comparable return on invested capital as adjusted		14.3%		15.0%	15.1%

[a] Adjustments remove the impact of \$209 million from both net income for the year ended and shareholders' equity as of December 31, 2020. See page 10 for a reconciliation to GAAP.

* ROIC and comparable ROIC are considered non-GAAP financial measures by SEC Regulation G and Item 10 of SEC Regulation S-K and may not be defined and calculated by other companies in the same manner. We believe these measures are important to management and investors in evaluating the efficiency and effectiveness of our long-term capital investments. In addition, we currently use ROIC as a performance criteria in determining certain elements of equity compensation for our executives. ROIC and comparable ROIC should be considered in addition to, rather than as a substitute for, other information provided in accordance with GAAP. The most comparable GAAP measure is return on average common shareholders' equity. The tables above provide reconciliations from return on average common shareholders' equity to ROIC and comparable ROIC. At December 31, 2020, 2019, and 2018, the incremental borrowing rate on operating leases was 3.7%.

----------------------	-----------	--------	-----------

* The above tables reconcile our results for the three-months and year ended December 31, 2020, and as of December 31, 2020, to adjust results that exclude the impact of certain items identified as affecting comparability. We use adjusted operating expense, adjusted operating income, adjusted income taxes, adjusted net income, adjusted diluted earnings per share (EPS), adjusted operating ratio, and adjusted shareholders' equity, as applicable, among other measures, to evaluate our actual operating performance. We believe these non-GAAP financial measures provide valuable information regarding earnings and business trends by excluding specific items that we believe are not indicative of our ongoing operating results of our business, providing a useful way for investors to make a comparison of our performance over time and against other companies in our industry. Since these are not measures of performance calculated in accordance with GAAP, they should be considered in addition to, rather than as a substitute for, operating expense, operating income, income taxes, net income, diluted EPS, operating ratio, and shareholders' equity as indicators of operating performance.
